 **PONANT**

On this cruise aboard Le Lapérouse, PONANT invites you to discover the primitive beauty of the Sub Antarctic Islands of New Zealand. Set sail on a 14 -day expedition cruise and let yourself be dazzled by an exceptional itinerary, home to bountiful wildlife that is not found elsewhere.

Often described as the "Galapagos of the Southern Ocean", the Sub Antarctic Islands of New Zealand are among the best preserved environments on the planet. Isolated and wild, they are one those end-of-world places that have very few visitors and really do provide a total change of scenery.

Lush green meadows, steep cliffs, mountains and black-sand beaches: here you will find many dazzling landscapes frequented by an incalculable number of penguins, sea lions, fur seals, elephant seals, albatrosses and giant petrels.
